Dr. Alkaitis

Therapeutic Skin Food

Believing that "health is the essential foundation of beauty", molecular biologist-turned-cosmetic genius Dr. Alkaitis has created a range of natural products made to repair, heal and protect skin from the elements. The latest US brand to cross the Atlantic, the range takes a holistic approach to beauty. We love the Organic Day Cream, which stimulates the oxygen supply to the surface of the skin and, thanks to a cocktail of ingredients like Aloe Vera, St John's Wort flowers and Echinacea root, you can be assured that your skin is in the best possible hands. £65, 50ml. Order at www.alkaitis.co.uk.
